## **Holiday Programs at the Falls of the Ohio State Park** December 28, 29 & 30 at 2:00

### **December 28 – Discovering Geodes – Alan Goldstein**

Fascinated with the crystal-filled round rocks found in Indiana and Kentucky? How were they formed? Why are some hollow and others solid? What minerals are found inside? Why are they found in certain locations and not everywhere? Explore the geology of the curious geode and find answers.

After the program, check out the fossil cart and then visit the quarry piles by the parking lot, weather permitting, to take home a fossil, rock or crystal!

### **December 29 – Polar Bears in Peril – Emily Goldstein**

Emily is Arctic Teen Ambassador for the Louisville Zoo and a freshman at the University of Louisville. She will share her experiences with polar bear research and show how climate change is affecting their ecosystem. Emily has been to Churchill, Manitoba twice to study the bears, and has first-hand knowledge of how climate change has already affected the Arctic.

### **December 30 – Family Storytelling - Mandy Dick**

“Why Bear has a Short Tail” and other tales!

Besides the stories, the Kids Corner will be open for the little ones, with puppets, books and toys, and older children may “scavenger hunt” in the exhibit gallery.

For more information call 812-280-9970.

Programs at the Interpretive Center are included in building admission.

Admission to the Interpretive Center is \$4 for adults and \$1 for children ages 2 to 18, Monday through Thursday. Friday, Saturday, Sunday and holiday admission is \$5 for adults and \$2 for children. The \$2 parking fee is waived for those visiting the Interpretive Center. The Center is open 9 a.m. to 5 p.m. Monday through Saturday and Sundays from 1 p.m. to 5 p.m.
